

CHRISTINE TAXIN

Christine Taxin has over 20 years as a practice management professional. Her passion for communication, team training, vision and goal setting has helped many practices meet their potential, and increase their profitability. She helps each team member develop latent strengths to improve performance and effectiveness.

Her varied strengths include specialties in administrative systems, internal and external marketing, financial planning, and medical and dental insurance billing. She also consults with neuromuscular sleep-apnea professionals.

Christine collaborates with many of the country's top consultants and lecturers. This powerful networking keeps her well-informed and at the forefront of dentistry. It allows her to work with the best in the industry and pass the learning along to her clients. Her workshops are lively and informative with positive feedback from both meeting planners and attendees.

Prior to starting her own management consulting company, she worked for a large New York City hospital as administrator of a critical care department and managed an extensive practice. She has received certified training from the Las Vegas Institute and Coach Training Alliance. She is a proud member of, Speaking Consulting Network, CareerFusion, American Association of Dental Office Managers and The Academy of Dental Management Consultants.

Christine is a guest speaker for Henry Schein, Patterson Dental, Sirona Dental Systems and Goetze Dental. She has presented for the American Association of Dental Office Managers, Pennwell's Professional Dental Assisting and the New York Academy of General Dentistry.

Dear Doctor:

Are you looking for a rock-solid business plan? Peace of mind, hope and an increased level of organization along with the confidence that comes from knowing the resources you have at hand can be yours.

Secure your office's future with a better understanding of production and collection benchmarks. We will also discuss how to market your office for maximum visibility.

Not only will we provide a plan for the year, but we will help you solidify your practice's cash flow by adding services such as medical billing.

Working with us will allow you the ability to *"Take Control of Your Overhead"* and be ahead of the dental curve by having the ability to work within the medical arena.

Regards,
Christine Taxin
