

Meet Christine Taxin

Coding is much different today than it was previously. We must think differently and consider the patient's overall wellness. Many offices are not aware of the full range of benefits available to the patient through the insurance plan. Learn how to maximize the patient's benefit while increasing practice cash flow!

Christine Taxin's workshop and lecture attendees benefit from her expertise in **advanced dental billing, dental to medical cross-coding, administrative and wellness systems.** Her company, Links2Success, is approved as a PACE continuing education provider through the Academy of General Dentistry.

Prior to starting her own management consulting company, Christine worked for a large New York City hospital as administrator of a critical department, managed an extensive practice and worked with Coaching Solutions and Dynamic Administrators consulting companies. She has trained in management at LVI. She has been awarded "Leader in Consulting" for the past six years in Dentistry Today.

Christine is honored to serve on the American Dental Association's Council of Dental Practice Management as a Subject Matter Consultant for Practice Management Success (2016-2017). Additionally, she is a MAP Accreditation Program CT Scan Board Member. Christine serves as an **adjunct professor** at the New York University (NYU) Dental School and Resident Programs for New York City Programs.

“**Christine's courses are not just about codes.** They offer a whole new way of thinking!
Christine courses are a fun yet hard-hitting educational experience. *Not to be missed!*”
